- Technical Commission Meet at Vaduthala on 9
- GELN Volunteers arrive on 11
- Start of New Batches under skill training
- CRT Training on 28 & 29
- Bi-centenary Celebrations of the birth of Don Bosco begins on 16

From the Directors Desk

India is one of the youngest populations in the world and as such there is a workforce of 0.5 billion people. It is a great challenge for the government to train / skill young people and to provide jobs for them. Many initiatives have been already taken by central and state governments to train unemployed young people. An innovative program is now being launched by the central government in partnerships with the state governments and NGOs to introduce technical / vocational training in high schools. This will give students an opportunity to develop their interest in technical field and get exposed to industries. BREADS-DB TECH has been chosen to impart skill training in 57 schools in Karnataka under this project. This is another feather on the cap of BREADS-DB TECH and a recognition of our contribution in this sector.

In this issue of SLICE, we will discuss this new project which is called as "National Skills Qualification Framework" (NSQF).

With Best Wishes,

Fr Joy Nedumparambil SDB
Executive Director - BREADS

National Skills Qualification Framework (NSQF)- Skilling India & empowering youth

Government of Karnataka Selected BREADS- DB Tech to impart the NSQF scheme in 57 Schools of Karnataka state to conduct skill training in Automotive Sector. This is a Government of India sponsored scheme of Vocationalisation of Secondary Education by integrating employability education into School Education. Through this scheme BREADS- DB Tech will reach out 1425 schools students of Class IX across 28 districts of Karnataka state with Vocational Skill training, Life Skill training and Motivational Sessions.

The key elements and components of NSQF

In order to address the various issues related to Vocational Education and Training (VET), attention has been given by the Government to develop a Qualifications Framework to integrate the qualifications of technical, vocational and academic education. The key elements of this scheme are:

- National principles for providing Vocational Education (VE) leading to international equivalency.
- Multiple entry and exit between VE, general education and job markets,
- Progression within VE,
- Transfer between VE and general education, and
- Partnership with industry/employers

The following are the components integrated in NSQF

- Integrating Vocational Education with main stream General Education.
- National Occupation Standards (NOS): The NOS for each job role within the identified skill sectors will be laid down by the Sector Skill Councils (SSCs).
- Industry Engagement: Participation of the industry and employers will be a critical prerequisite for the success of NSQF.
- The competency based curriculum package would consist of syllabus, student manual, trainers guide, training manual, teacher qualifications and multimedia packages and e-material.

RMSA, Dept. of Primary & Secondary Education, Govt. of Karnataka is the designated agency to implement this project in Karnataka state. They have already started this initiative in 100 Secondary Schools from 2014-15 onwards. The project will introduce skill training to more than 5,000 students (100 Schools X 50 students) in the first year itself. Out of 100 schools, Automotive Sector will be introduced in 57 schools which consist of 25 students from each school for Automotive Sector. BREADS-DB Tech is the implementing agency to impart skill training in automotive sector in 57 Schools. It is a recognition for BREADS-DB Tech for our long years of involvement in training the youth in vocational skills. The process has already started and job applications for the instructors and other personnel are called for the project. The project will encourage the students to learn vocational skills along with their formal education thus contributing to fill the skills gap of India.

Required Automobile Trainers

Don Bosco Tech (DB Tech) a network of 200 Don Bosco skill training institutes and the largest NGO engaged in skill development for imparting employment-linked, market-oriented vocational training to the economically and socially marginalised youth intends to deploy Teachers (B Tech/Diploma in Automobile/Mechanical with minimum 2 year experience) to train students in **AUTOMOBILE** trade at selected Govt. Composite Pre-University Colleges under 'National Skills Qualification Framework (NSQF) Project' undertaken by Govt of Karnataka. Interested candidates kindly send your resume to the following email Id resumedbtech@gmail.com or contact: **9449021175**.
