- ☞ Interns from CSI College for Legal Studies, Kottayam.
- ☞ Summer Camps in all Don Bosco Projects
- ☞ BOSCONET Staff Meeting at BREADS

DIRECTOR'S NOTE

The government of India is very focused on the skill mission and the emphasis so far has been on the manufacturing and recently on service sectors. The skill development domain should not get limited to becoming just a feeder for the multinationals in the service sector. When an economy like India's revolves around the agriculture sector and when more than 70% of the Indian population is engaged in agriculture for their livelihood, it is imperative that the government pays attention to developing technology in the agriculture sector and improve the skills of farmers.

Skill development of the less privileged young people of both rural areas and urban settlements is one of the key areas of BREADS' intervention. BREADS partners with DB Tech Society, Don Bosco Mondo and various Corporates in various formal and non-formal skill training programmes. BREADS would be furthering its interest in promoting the skills of farmers, with a project already in the pipeline. In this issue of SLICE, we take a glance at the skill training programmes of BREADS and DB Tech.

With best wishes,

*Fr. Joy Nedumparambil SDB
Executive Director
BREADS Bangalore*

NEWS

Training for Child Rights Clubs in Chitradurga

On 17th and 18th of April 2017 the Chithra Don Bosco conducted the training for the Child Rights Clubs. The training highlighted the problems faced by children and focused on to develop the leadership qualities and to notify the child rights violations to the concerned authorities. The CRCs are formed at the district level to share the views and to strengthen ... [more](#)

SHG Facilitators' Training in Kollam and Bangalore

The true information always sharpens our skills, when our skills are sharpened we are motivated to make impacts. Our knowledge and skills must be refreshed and updated at every moment. A three day facilitators' training was organized at Kollam and Bangalore for the members of self-help groups to revamp their entrepreneur skills. The training was... [more](#)

India is a fast growing economy in the world and this economy requires an educated and skilled working force to power its growth. Skills must be the driving force for innovation and growth. Vocational training must become an integral part of our formal education at schools that can spark students at an early stage to explore in skill development and training. Our education programmes must be in tune with global needs and changes; it should thus provide the foundation for skill development. Skilled workers can enhance efficiency at work; skills also enable flexibility and job mobility. Different data shows that efficient, skilled workers are less in the Indian job sectors. Therefore, there was a considerable effort from the Ministry of Labour and Employment to create various schemes, including setting up the National Skill Development Corporation, India in 2009 to train/skill 500 million people in India by 2020.

Fulfilling the Need of the Hour

Don Bosco Tech Society has more than 420 vocational training institutes across 29 states in India with the mission to skill youth in 66 domains. DB Tech has already trained 343979 students and 8662 trainees are in the classroom now. DB Tech BREADS has 44 centres; out of which, 22 centres are in Karnataka and 22 centres in Kerala. Training initiatives are undertaken at the rural and urban areas to fight against unemployment, to create knowledgeable and skilled employees, and to explore the enormous amount of job opportunities in the vocational training sector.

Skill Training Statistics - Karnataka and Kerala (April 2016 – March 2017)

No. of Centres	Trained	Placed	Under Training	Gross Training Target	No of Students under NSQF in 57 Schools
44	2991	1660	3069	6060	2240
